

Dear Soldier,

My name is [your_name_here]. I am from [wherever_your_from]. You've received this letter through the efforts of the Veterans Club at the University of North Carolina at Charlotte. Several veterans from Operation Iraqi Freedom and Operation Enduring Freedom have finished their commitments to the Army and are now attending college and are utilizing their G.I.Bill benefit. They have organized a club at the university to further veteran issues among the community. One of the services they are now providing is an outreach program for civilians to write to soldiers currently serving overseas.

I'd like to thank you for your service to our country and would like you to know that you are not forgotten. There are many people, including myself that would like nothing more than to see you all come safely home. I write this letter with pride knowing that the spirit of this great nation is being represented fully by soldiers like you each and every day.

Please write back to me, I would love to hear that this letter reached you, a real American Soldier and hero.

My address is

[Insert_your_address_here]

Kind Regards,
